• EXPERIENCE

AUG 2019 – PRESENT

Developer | IBM, Bangalore

- Working in the IBM ISL Watson Customer Intelligence team and developing IBM Sterling Information Hub.

JUN 2019 – AUG 2019

Visiting Researcher | NTU, Taiwan

(Summer Researcher)

- Worked in I-Agents lab on enhancing Education Technology using HCI.

DEC 2018 – MAY 2019

Project Developer | DELHI TECH. UNIV. Delhi (Researcher)

- Performing social media graph analysis to identify the opinion leaders in any social context and visualize news virality.

JUL 2018 – NOV 2018

Project Developer | CARLETON UNIV. Canada (Remote Internship)

- Worked on using RNNs to perform Entity Linking on video subtitles to provide resources for enhancing e-learning experience.

MAY 2018 – NOV 2018

Software Developer Intern | IBM, Bangalore

- Developed Services and Business Processes (Workflows) for improved Customer Engagement. Optimized REST Frameworks.
- Developed UI in Angular-6 for the Business APIs.

NOV 2017 – JAN 2018

AI Developer Intern | SLIET, Longowal

- Developed a chatbot called Florence.AI for studying human interaction in local shops.

MAY 2017 – JUL 2017

Big Data Intern | APTRON SOLUTIONS, Noida

- Wrote scripts to deal with real-time streaming data.
- Performed analysis on collected data, using Open Source platform Hadoop and Hive on the AWS Cloud cluster.

JUN 2016 – JUL 2016

Database Intern | UFLEX, Noida

- Handled Database storage formatting and cleansing tasks for three departments.

• EDUCATION

2015 – PRESENT

Bachelor of Technology / Indian Institute of Information Technology, Jabalpur

- Major: Computer Science & Engineering
- GPA: 9.025/10, **Academic-Excellence-Award** for all 4 years.

• MAJOR PROJECTS

- Intellistudy** – AI based web application to provide personalized learning on the basis of understanding of Individual student.
- Dgrafica** – Created a scientific data-chart classification, extraction and summarization program that uses Google's TensorFlow.
- Tenacity.AI** – An intuitive web application that uses IBM Watson APIs for gaining insights from video content.
- MOOC Feedback Visualization** – Improving the feedback mechanism of MOOC content in order for iterative course improvement.
- Gazinteract** – The aim of this project was to determine a non-tangible eye-gaze based screen interaction.

• ARTICLES & PUBLICATIONS

- REST Client Adapter in the IBM-B2B Sterling Integrator portfolio (**IBM Developer Works**)
- An Interactive AVL Tree Intelligent Tutoring System (**ACM COMPUTE 2019**)
- Unsupervised Single-View Depth Estimation for Real Time Inference (**IEEE CVIP 2019**)

• AWARDS & ACHIEVEMENTS

- International Rank 7** in International Informatics Olympiad (**IIO**).
- 2nd Position** in the Machine Learning and AI hackathon organized by **IBM**.
- Qualified for the Final round of **Smart India Hackathon (2018)** and was placed under **15 finalists**.
- Placed **under 10** in **Lab Call-For-Code Hackathon** organized by **IBM** and qualified for the final Global round.
- Secured **5th position out of 42 teams** in the Think-O-Hackathon sponsored by **Vassar Labs**.
- Best Abstract Award in **ACM Compute 2019**.

• SKILLS & TOOLS

- REST APIs, Spring-Boot, GraphQL, Angular-6, Version Control, OOPs, NoSQL, Elastic Search, Kibana
- Prototyping, UX Research, Design Thinking, UI Design
- HTML/CSS/JavaScript/C/C++/Java/Python
- Data Mining/Analysis, Data Visualization
- Adobe XD, Illustrator, Photoshop, Sketch, InVision
